

CHIME 065 w/sim

Electromechanical Chimes

With its sound plates of real bell steel, the classical Grothe two-tone gong reliably ensures a clear, rich tone during signalling. Conventional technology with the highest quality and longest durability. The 8 - 12V gongs can be operated via a transformer, but now have an additional compartment for 1 x 9V battery as standard.

| Model | Order No | Description | Colour | Dimensions |
|-------------------------|----------|---|---|----------------------------|
| CHIME 065 w/ sim | 44065 | <ul style="list-style-type: none"> • Two tone • Slot for 1 x 9V battery* • Transformer 8 V~ (4 VA) • Max 83 dB(A) | Casting colour: Black Front colour: White and Silver | 150(H) x 135(W) x 42(D) mm |
