

Digital time switches

Digital time switches with trippers for the management of electrical loads over time available in both daily and weekly version.
They combine the accuracy of a digital clock with the ease of a programming typical of the trippers clocks.
The cover on the back of the instrument allows the replacement of the battery once exhausted.

- 1 Large backlit display for viewing of the programming, time and relay status
- 2 Container: 2 DIN modules
- 3 Text guide
- 4 Cover on the back for battery replacement
